

FOOTY

Manage your mini soccer clubs

Why

There are no platforms to manage your mini soccer or futsal club. There are only platforms for soccer clubs because those are profitable and have budget to take a subscription on such platforms. With this project you can manage multiple teams and it's free.

How

Create an account, create a team and add your team members. You can add multiple teams and link them directly to your club that is registered at the RBFA. Get all the data you need in 1 simple application. That's how footy works.

Features

An overview of all your matches

Add line-ups and tactics

Check your rankings

Organize practice matches

And so much more ...
